

Look out for our new 'Health on the Move' van - visiting your area very soon

We appreciate that for some people it's not easy to get to a Covid-19 vaccination centre, which is why we're bringing the van closer to you. We know that some people still have questions about the vaccine so we've got local, trusted medical professionals on hand to help. They are ready to answer any of your questions and offer you the vaccination.

The van is open to anyone aged 18 and over. You don't have to be registered with a GP to pay us a visit.

We all need to play our part in kicking Covid into touch and making sure our families, friends and communities are protected from the virus. The vaccination is the best way of doing this.

So please book your appointment now using the details below, because the quicker we all get jabbed the quicker we can all get back to doing things that we've missed so much.

**We're visiting: The Central Family Hub, Thatcham
RG18 3PG**

On: 12 July 11am - 4pm

To book: Emma on 01635 865318
